PROJECTS

Graphing Calculator

Desktop Application

- A collaborative project built with the purpose of graphing a wide variety of functions. The application is also able to graph and return an approximated bounded integral.
- Built on Lua and LOVE using Git/GitHub for version control.

Maze Generator and Pathfinding Visualizer

Desktop Application

- The application generates random mazes of variable size using a Backtracking algorithm. It also animates the 'flood filled' path and the solution path using Breadth First Search.
- Built on Python and Pygame using Git/GitHub for version control.

Personal Website

Website

- A personal website built from scratch using HTML/CSS.

EDUCATION

Florida International University

2018 – Present

Bachelor of Arts, Computer Science

- 3.72 GPA
- Dean's List
- Bright Futures Scholarship (Florida Academic Scholar)

COURSEWORK

Data Structures (Spring 2020)	Fundamentals of Computer Systems	Programming 1
Programming 2	Systems Programming (Spring 2020)	Databases (Spring 2020)

SKILLS

Python	Java	Git/GitHub	Lua	HTML	CSS	JavaScript
--------	------	------------	-----	------	-----	------------
